

Frequency

WORKSPACE FLOORING HAS NEVER BEEN SO VERSATILE

Frequency, like the beat of your heart, be it quiet or loud, is always in rhythm with its surroundings. This is a new vision in carpet design where colour and pattern create a dynamic platform for the workplace.

Keep it cool and sophisticated with our four gorgeous new greys, or experiment with the original base greys, combining them with the ten vibrant accent colours that pop and explode your concept across the canvas of the floor.
